

Playtime

Lukas Graham

We started with a clean slate
Came to stake our claim
Looking for a good time
On the streets that reek of fame

Where everybody looks good
They're better dressed than me
The waitress brings us cold beers
But she wants to see ID

I swear she saw me coming
Well maybe in an hour or two
She said: "Boy do you like downtown?"
What else was I to do?

You know I tipped her, and
Slipped, slipped her the number
I said I just got into town and I wanna
Hang out and light up some marijuana
You wanna? You wanna? You?

She said when I get off it's playtime
I'll show you where to go on late nights
And later I'll get you the better ride
And maybe I can make you ***
She said when I get off it's playtime
I'll show you where to go on late nights
And later I'll get you the better ride
Oh baby I'm gon' make you ***

She took me to a dive bar
The kind that never close
The cheapest drink was Bourbon shots
So we loaded up on those
Her friend was serving all night
I liked her serving slow
When locking up she told me: "sit"
While she told the rest to go

So I tipped her and
Slipped, slipped her the number
I said I just got into town and I wanna
Hang out and light up some marijuana
You wanna? You wanna? You?

She said when I get off it's playtime
I'll show you where to go on late nights
And later I'll get you the better ride
And maybe I can make you ***
She said when I get off it's playtime
I'll show you where to go on late nights
And later I'll get you the better ride
Oh baby I'm gon' make you ***

If a girl has got to go
And work all day (work all day)
I'm gonna do my best to help her find a little time to play

She said when I get off it's playtime
I'll show you where to go on late nights
And later I'll get you the better ride
And maybe I can make you ***
She said when I get off it's playtime
I'll show you where to go on late nights
And later I'll get you the better ride
Oh baby I'm gon' make you ***
