

All My Friends Say

Luke Bryan

I got smoke in my hair, my clothes thrown everywhere
Woke up in my rockin' chair, holdin' a beer in my hand,
Sportin' a neon tan
My stereo cranked up, I can't find my truck
How'd I get home from the club
Ain't got a clue what went down, so I started calling around

R: And all my friends say I started shootin' doubles when you walked in

All my friends say I went a little crazy seein' you with him
You know I don't remember a thing
But they say I sure was raisin' some cane
I was a rock-star, party-hard, gettin' over you comeback kid
Yeah, I must've did what all my friends say (yeah, yeah, yeah)

I found my billfold, I cried oh, no, no
Good Time Charlie got me now I'm broke
But it was worth actin' like a fool
Yeah, girl, I must've really showed you

R: And all my friends say...

I was Elvis rockin' on the bar
Workin' the crowd, pourin' out my heart

R: And all my friends say... (2x)
