

# Crash My Party

Luke Bryan

1. It dont matter what plans Ive got, I can break em  
Yeah I can turn this thing around at the next red light  
And I dont mind tellin all the guys I cant meet em  
Hell, we can all go raise some hell on any other night  
Girl I don't care, oh I just gotta see what youre wearin  
Your hair, is it pulled up or fallin down  
Oh I just have to see it now

R: If you wanna call me, call me, call me  
You dont have to worry bout it baby  
You can wake me up in the dead of the night  
Wreck my plans, baby thats alright  
This is a drop everything kinda thing  
Swing on by, Ill pour you a drink  
The doors unlocked, Ill leave on the lights  
Baby you can crash my party anytime

2. Aint a spot downtown thats rockin the way that you rock me  
Aint a bar that can make me buzz the way that you do  
I could be on the front row of the best show  
And look down and see your face on my phone  
And Im gone, so long, hang on  
Ill meet you in a minute or two

R: If you wanna call me...

\*: If its two in the mornin and youre feelin lonely  
And wonderin what I'm doin

R: Go ahead and call me, call me, call me...

Baby you can crash my party anytime
