

# First Love Song

Luke Bryan

Ridin' down the road, listenen' to the radio  
you leaned over and you turned it up  
You said, "Baby this is it,  
the one I wanted you to hear  
Don't it sound just like us?"

Up 'til then, all I'd ever listened to  
was a little Sweet Home, Tuesday's Gone,  
and Workin' Man blues

R: This is my first love song  
First time I felt the words, first time I sang along  
Whenever it comes on,  
I just think of you and everything you do  
You're my one, my from now on  
My first love song

Baby I'm not who I was  
You gave me your love and it woke me up  
and made me more aware of somethin deep inside  
Something that I have, a life I wanna share  
And I'll rememebr this as long as I live  
Every note, every word, every single kiss

R: This is my first love song... (2x)
