

# Little Bit Later On

Luke Bryan

Drop it boys

I say hey man  
Whatcha doing later on?  
He said aw man  
I'm just hanging out later on

I said I'll swing by and get ya  
And you'll be there and I bet ya  
We can find a little something to do a little later on

I say hey man  
What's Jr and them doing later on?  
He said aw man  
He's gotta check on his momma and them later on

So it looks like you and me  
So let's ride around and see  
If we can find a little bit of trouble a little later on

Come on!

When the stars come out  
And the sun's long gone  
We're gonna drink up a lotta beer a little later on  
Gonna find a good spot  
Crank up a few songs  
We're gonna get on outta here a little later on

You know out in the country don't make no plans  
Throw it out there, see where it lands  
Rockin' out all night and roll back home  
A little bit later on

I said hey girl  
Whatcha doing later on?  
She said  
I'm getting off work later on

I said call a couple of your friends  
'Cause me and my buddy Ben  
We're gonna be back by to get you a little later on

Haha yeah

When the stars come out  
And the sun's long gone  
We're gonna drink up a lotta beer a little later on  
Gonna find a good spot  
Crank up a few songs  
We're gonna get on outta here a little later on

You know out in the country don't make no plans  
Grab a pretty girl, take her by the hand  
Rockin' out all night and roll back home  
A little bit later on

Meet up with you little bit, little bit, little bit later on  
Come on now a little bit, little bit, little bit later on  
We're gonna break it all down to the break of dawn  
A little bit, little bit, little bit later on

When the stars come out  
And the sun's long gone  
We're gonna drink up a lotta beer a little later on  
We're gonna do it up right  
All night long  
Gonna worry 'bout tomorrow a little later on

You know out in the country don't make no plans  
Find a little bar with a guitar band  
Rockin' out all night and roll back home  
A little bit later on  
A little bit later on

Lay a little bit of rubber down on some asphalt  
50 yard line, better not get a butt call  
A little bit later on  
Find a little spot right down on the creek bank  
Really don't care what your momma and daddy might think  
A little bit later on  
A little bit later on
