

# Tailgate Blues

Luke Bryan

I catch my buzz in the black of night  
Where nobody ever goes and the warm wind blows  
If I loose my cool in the open and it shows  
That I'm down and I ain't alright

I search my soul where there is no moon  
The trees all cross and are covered in moss  
If the crickets wanna know then I'll tell them what I lost  
Oh, I got the tailgate blues

I ain't sure were it all began  
Somewhere 'round here I know  
This bridge was a little more crowded then  
I was playing her a tailgate show  
And now I'm just sittin' here alone

To catch my buzz in the black of night  
Where nobody ever goes and the warm wind blows  
If I loose my cool in the open and it shows  
That I'm down and I ain't alright

I search my soul where there is no moon  
The trees all cross and are covered in moss  
If the crickets wanna know then I'll tell them what I lost  
Oh I've got the tailgate blues

Damn that AM radio  
For playing more than a song  
My heart won't beat if the strings are broke  
The melody's hittin' me wrong  
Right here where she belongs

I catch my buzz in the black of night  
Where nobody ever goes and the warm wind blows  
If I loose my cool in the open and it shows  
That I'm down and I ain't alright

I search my soul where there is no moon  
The trees all cross and are covered in moss  
If the crickets wanna know then I'll tell them what I lost  
Oh, I got the tailgate blues

The crickets heard my story and I listened to em sing  
I guess I'll close the tailgate up  
There ain't no telling what tomorrow might bring  
Maybe me and a Dixie cup  
But that won't be enough...

Yes I catch my buzz in the black of night  
Where nobody ever goes and the warm wind blows  
If I loose my cool in the open and it shows  
That I'm down and I ain't alright

I search my soul where there is no moon  
The trees all cross and are covered in moss  
If the crickets wanna know then I'll tell them what I lost  
Oh, I got the tailgate blues

I catch my buzz in the black of night  
Where nobody ever goes and the warm wind blows  
If I loose my cool in the open and it shows  
That I'm down and I ain't alright
