

You Make Me Want To

Luke Bryan

You make me want to
Hold you like a hammock on a summer day
Tell you how I'm gonna take your cares away
You make me want to.

You make me want to
Roll down the river and around the bend
Love you like a story with a happy ending
You make me want to.

R: You can blame it on my Southern boy ways
Wife always runnin' away
I don't know if I can ever change
But, you make me want to.
You make me want to.

You make me want to
Hang up the phone and ride across town
Walk through your door and lay you down
Kiss you til you feel the truth.
Yeah, you make me want to.

R: You can blame it on my Southern boy ways
Wife always runnin' away
I don't know if I can ever change
But, you make me want to.
Yeah, you make me want to.

Well, I never met a girl like you
That's got me thinking like I do
To hang up my hat and kick off my boots
But, you make me want to
You make me want to
You make me want to
Baby, you make me want to.
