

# You Make Me Want To

Luke Bryan

You make me want to  
Hold you like a hammock on a summer day  
Tell you how I'm gonna take your cares away  
You make me want to.

You make me want to  
Roll down the river and around the bend  
Love you like a story with a happy ending  
You make me want to.

R: You can blame it on my Southern boy ways  
Wife always runnin' away  
I don't know if I can ever change  
But, you make me want to.  
You make me want to.

You make me want to  
Hang up the phone and ride across town  
Walk through your door and lay you down  
Kiss you til you feel the truth.  
Yeah, you make me want to.

R: You can blame it on my Southern boy ways  
Wife always runnin' away  
I don't know if I can ever change  
But, you make me want to.  
Yeah, you make me want to.

Well, I never met a girl like you  
That's got me thinking like I do  
To hang up my hat and kick off my boots  
But, you make me want to  
You make me want to  
You make me want to  
Baby, you make me want to.
