

# Dancing In The Dark

Luke James

Look at who we are  
'Ain't it wonderful  
Strangers in the dark  
'Ain't it beautiful  
Let go of what we know  
I'm learning more and more  
Let's just keep them all  
I know you've got the glow (Oh baby)

Cause we're dancing in the dark again  
In the dark again  
We're dancing in the dark again  
In the dark again  
And it feels so good  
When I lay you down  
Dancing in the dark again  
In the dark again

Look at where we are  
Far from what we know  
I'm reaching for the parts  
You're afraid to show (Show me baby)  
Just let your love come down  
Let it overflow  
What you're feeling now  
No you're not alone (Not alone)

Cause we're dancing in the dark again  
In the dark again  
We're dancing in the dark again  
In the dark again  
And it feels so good  
When I lay you down  
Dancing in the dark again (So good)  
In the dark again

Cause we're dancing in the dark again  
In the dark again  
We're dancing in the dark again  
In the dark again  
And it feels so good  
When I lay you down  
Dancing in the dark again  
In the dark again
