

## Love XYZ

Luke James

Come to me and I'll give you all that you need  
Love XYZ  
Come  
Come, come into me  
And I'll give you all that you need  
Love XYZ  
So I must be wrong with my feelings  
(What's wrong with me)  
This love just won't let me be  
Shit, when I look into your eyes, talk about reverie  
Ooh, how I tremble at the side of your eyes  
I just what to know what you see  
Know you don't care, you don't dare, you need to be free

Come to me,  
Come along, come along and I'll give you all that you need  
Love XYZ, love  
And I'll give you all that you need  
(Give me all that I need)  
Love XYZ, love  
Say you never leave, say you never leave, say you never leave  
Ooh baby, love me til I can't tell no more  
Love me til I can't take no more
