

# Crucify My Heart

Lullacry

My hopes were running high  
Left me like a morning tide  
Everything I do is up to you

How can I still pretend  
All good things must end  
Emotions are so easy to crush

Like a junkie I traded everything for love

You were all I ever wanted  
Right from the start  
You were all I ever needed  
Crucify my heart

The tide has turned  
See my dreams drown  
Nothing new under this hollow sun

The stillness of the night  
Only thing holding me tight  
Emotions are so easy to crush

Like a junkie I traded everything for love

You were all I ever wanted  
Right from the start  
You were all I ever needed  
But you crucified my heart

Crucify my heart  
Crucify my heart

Like a junkie I traded everything for love

You were all I ever wanted  
Right from the start  
You were all I ever needed  
But you crucified my heart

You were all I ever wanted  
Right from the start  
You were all I ever needed  
But you crucified my heart

Crucify my heart  
Crucify my heart
