

# Unchain

Lullacry

This sadness won't let go  
It's hold of me  
No matter how hard I try

There's something strange deep inside of my heart  
And nothing really matters to me

I'm so alone  
My heart is bleeding  
Unchain my soul and let me go

I close my eyes and taste my fears  
Down there so alone  
Sorrow inside made me bleed  
I need you to unchain me

Sorrow inside made me bleed  
I need you to unchain me

I close my eyes and taste my fears  
Down there so alone  
Sorrow inside made me bleed  
I need you to unchain me

Sorrow inside made me bleed  
I need you to unchain me

Unchain me  
I need you to unchain me  
Unchain me  
I need you to unchain me
