## Unchain

This sadness won't let go It's hold of me No matter how hard I try There's something strange deep inside of my heart And nothing really matters to me I'm so alone My heart is bleeding Unchain my soul and let me go I close my eyes and taste my fears Down there so alone Sorrow inside made me bleed I need you to unchain me Sorrow inside made me bleed I need you to unchain me I close my eyes and taste my fears Down there so alone Sorrow inside made me bleed I need you to unchain me

Sorrow inside made me bleed I need you to unchain me

Unchain me I need you to unchain me Unchain me I need you to unchain me

## Lullacry
