

Double Feature

Luna

Shall i tell you once again
I didn't change my mind
It changed all by itself
Now they say that i'm unkind
There was nothin' i could do
No decision to be made
Little by little
It caught me surprise

I don't know why
I can't say how

Who'm i gonna be
What am i gonna do
I've been foolin' everybody
I've been uptown at the zoo
I have seen the chimpanzes
In the afternoon sun
It's quiet at the snakehouse
And my legs are turned to jelly

I don't know why
I can't say how

Who're you gonna be
When you walk into my life
I turned so sentimental
Cause i have no one to talk to
Over and over
It's a merry go round
It changed all by itself
Don't you say that i'm unkind
