Going Home

I've seen her face In those scented magazines All is forgivin' I love her still And we're home, home Goin' home

The chrysler building Was talkin' to the empire state The twin towers Were talkin' to each other Sayin' all is forgivin' I love you still And we're home, home Goin' home

What she saw in him Nobody knew It's a mystery What she saw in him Nobody could tell Now it's history All is forgivin' I love her still

And we're home, home Goin' home And we're home, home Goin' home And we're home, home Goin' home Luna
