

# I Know You Tried

Luna

I went to your street  
At seven in the mornin'  
And while you were asleep  
I read your newspaper  
I saw you out walkin'

Out walkin' with your father  
Pretendin' not to see me  
Pretendin' to be a family  
I know you tried, baby  
I know you tried  
I know you tried to go on

Saw a metal object  
Lyin' in the street  
And when we turned away  
It stood itself up  
You circled the island  
In a Chevy caprice  
You stuck out your tongue  
And your nose began to bleed

I know you tried, baby  
I know you tried  
I know you tried to go on  
I know you tried, baby  
I know you tried  
I know you tried to go on
