

Pin Eye Woman 665

Lunachicks

Veins, scream for more needles
you a whore, do anything to get one in
to feel the warmth of this deadly pin
to be sick is purgatory
when your numb, your numb in all your glory
the pain would make you cease
to exist for peace of mind, you can't resist
anything to make it stop
the pains too great for you
gotta cop
someday aids will attack your being
but to the needle
you keep on fleeing
can't feel bad, won't give ya pity
"cause you chose a life that's shitty!
Chorus
Pin Eye Woman just one more fix
Pin Eye Woman, stop your turning tricks!
you gotta have it
your sickly treat
you'll even sell your ass on the street
the first prick brings you sanity
your Pin Eye Woman vanity
floating high above your bones
think you're as cool as the Rolling Stones!?!"
