

Super Hero

LUNAFLY

I know I always had a heavy heart
I would always put up my guard
And I never thought of you
Should have stuck to you like glue

Every time you went through that pain
I left you going all insane
Girl I should have thought of you
I should have seen your point of view

Oh I could try to explain
(It wouldn't mean a thing)
I could take all the blame
(It wouldn't mean a thing)
Ain't it better later than never baby
You know I've been next to you lately
Now I want it how it was before

I know it may be late now
And I know that I've taken a vow
But I'm here I'm a superhero
And I can save you
Baby I know you can forget the things I've done
I know I've been away
But I can save you now
Woah
But I can save you now
Woah

I was really dumb why did I go
Why did I ever put on that show
I should have been around for you
Instead I got you feeling blue

Oh I could try to explain
(It wouldn't mean a thing)
I could take all the blame
(It wouldn't mean a thing)
Ain't it better later than never baby
You know I've been next to you lately
Now I want it how it was before

I know it may be late now
And I know that I've taken a vow
But I'm here I'm a superhero
And I can save you
Baby I know you can forget the things I've done
I know I've been away
But I can save you now

Baby turn around
Wanna talk to you
Can you hear the sound
Tell me what to do
This time
I'm all yours

You know I didn't mean it I never thought to
Hurt you girl oh I can put this right
I'll be your knight

I know it may be late now
And I know that I've taken a vow
But I'm here I'm a superhero
And I can save you
Baby I know you can forget the things I've done
I know I've been away
But I can save you now
Woah
But I can save you now
Woah
