

In a Firmness Loop Day

Lunarsea

Limb

Conformation of an ill limb

Sleeping or awaking

It isn't enough different

Beyond the window

The day is old already

Ingrate well-defined slavery

Embedded in a firmness

Loop day

(As years go by)

Trapped in an endless

Loop death

(A plead to set the stagnant free)

Insects walking

Shadow on arm

The circuit told us to hate

What we cannot understand

Autumn's rain runs outside

Nature is dead or appear so

Incentives of meditation

Activate an occasion and not sentence

Minds smeared on uncertainty's dread

Smashed to pieces and recomposed

Only mental sadness makes

Equal every crystal snow

Only absurd pretension

Shortens sunlight

Only absurd pretension

Shortens sunlight

Embedded in a firmness

Loop day

(As years go by)

Trapped in an endless

Loop death

(A plead to set the stagnant free)

Insects walking

Shadow on arm

The circuit told us to hate

What we cannot understand

Autumn's rain runs outside

Nature is dead or appear so

Incentives of meditation

Activate an occasion and not sentence
