

# Masquerade

Lunaspape

Love is making you blind  
For love is your own disguise  
Your masquerade  
Love seems to hide  
Love will hide your face  
Love...

You are fading your soul  
Into a life of your own  
Your masquerade of love seems to hide  
Love will hide your face

Whenever you will like  
The mask of love  
You better try to save your life  
Before it's gone  
Whenever you will break  
The masquerade  
You better feel without  
And take it all out

Love me more, and see me  
The mask is taking over your life  
Your masquerade  
Love and feel me  
The masquerade is fading your life
