

# Evil Breeds More Evil Still

Lunatic Gods

Light gets twisted in the eyes of the blind  
The worms have come out of the underground  
Worms are creeping for their future  
Now the difference is clearly pronounced  
When profit rules their minds

Anger crashes pride - war  
"We want to live in here  
We want your happiness  
No more toil in darkness"  
Anger crashes pride - war  
"We'll never rest until we  
Get what we strive to have  
We'll never leave this land"

Stand face to face, the hatred in their eyes  
"We do not want to share our way to paradise"  
Worms are creeping for their future  
Now the difference is clearly pronounced  
When profit rules their minds

Anger crashes pride - war  
"Give us your land  
Give us your sunny day  
No more toil in darkness"  
Anger crashes pride - war  
"That's what we strive to have  
If we don't get it  
Prepare for bloody war"

The war has begun  
Now the world is divided  
Their souls are committed, all respect is gone  
In for a penny  
In for a pound  
Manipulated they're craving for more  
The war has begun  
Now the world is divided  
Their souls are committed, all respect is gone  
In for a penny  
In for a pound  
Manipulated they're craving for more

They, face to face, the hatred in their eyes  
Here ends the peace, knife in your bloody hands  
Worms are creeping for their future  
Now the difference is clearly pronounced  
When profit rules their minds

Anger crashes pride - war  
"We want to live in here  
We want your happiness  
No more toil in darkness"  
Anger crashes pride - war  
"We'll never rest until we  
Get what we strive to have  
We'll never leave this land"
