

# Nation of the Blind

Lunatic Gods

We're the nation of the blind  
Underground  
We're the nation of the hard  
In the night  
You never see the light  
I am just a worm  
Hiding all my life in darkness  
There is nothing more  
Just the myth that there is the sun  
Shining Star  
One day we will find it  
Everyone  
Strive for better life for all  
Now the word is lost  
Terrified

Underground  
The toil is always hard  
In the night  
You never see the end  
I am just a worm  
Hiding all my life in darkness  
There is nothing more  
Just the myth that there is the sun  
Shining Star  
One day we will find it  
Everyone  
Strive for better life for all

You're never lost!  
Raise your heads!  
It's over my head  
Shining star  
Join me  
On my quest  
Right there  
I see it shine  
Way there  
Over my head  
Way up  
Existence  
Now the worst is lost  
We'll find the star

The rays will shine above  
I'll come from underneath  
The rays will shine upon me  
To live in peace  
We're the nation of the blind  
Underground  
We're the nation of the hard  
In the night  
You never see the light  
Underground  
The toil is always hard  
In the night  
You never see the end
