

## The Dark House

Lunic

Don't wanna fight no more  
Don't wanna win the war  
I cannot make a dead rose golden  
A penny for your time  
O precious valentine  
You hate me for the path I've chosen

Cause in the dark house you aren't dreaming  
Sleeping alone  
Still counting castles I am weeping  
Leaving (home)

Eyes I don't recognize  
Careen and criticize  
A faith less lost than never known  
O does it hurt to smile  
I know it's been a while  
The birds up here don't sing no more

Up in the dark house there's no morning  
It's boring alone  
The words of wisdom you're ignoring  
Deploring your own

I wanna go where heaven flows like silver liquid in my hands  
The magnet touch of purest love can save a man...  
So let's dance
