

Thieves

Lunic

Here we go, on our own
We'll make our own path, we won't look back
5am for a drive
The Monday sunrise makes us smile
In the moment we're free
of all the bad things, little lovethieves
Here we go!

I won't let you go
I like it here
For the first time I am happy
I feel alive
So let's drive

The simple things that we do
make me thankful that I met you
Even when we get tired
we stay up talking or go out walking
With the wind in our face
we're so alive, we're so awake
Here we go!

I won't let you go
I like it here
For the first time I am happy
I feel alive
So let's drive

It's a shame these things don't last forever
I'll never forget our time together
Don't know what happens in the end
I'm just glad i found a real friend

Ride that horse!
