Hey he had a whole lot of cheese plus he was a mac had a whole lot of steez

Made a lot of niggas fat gave a whole lot of G's, grams man he had a whole lot of these

And he would let you hold a whole lot of keys, even if u lose some he would give you new ones

Twice the bread like he had two buns, and he had a whole lot of steez even his kids had meals

For reals some rich small fries wrapped in paper since they was little, ketchup nigga

My man said life ain't easy when niggas gotta eat thats when shit get greasy streets be all

Like feed me feed me when niggas gotta eat thats when shit get greasy

My man said life aint easy when niggas gotta eat thats when shit get greasy

He was a heart breaker and a large shaker, if it was bout caking, he was a part taker

International he would take trips bon voyage just as hard he was fishing for the chips so greedy

Never gave to the needy thats what some say he shoned on the buses hanging in the subways he

Called them fruits and laughed at em delivery man on the pickup drive through and throw the bag

At em it was hard to understand him sometimes making a killing the way he had em standing in line
