

Down To Earth

Luscious Jackson

Come back down to earth, oh yeah
Come back down to earth
Come back down to earth, oh yeah
Come back down to earth

Ever wake up thinking that you wanna be big star
Dream about the day that you get a bodyguard
Greet the world from the stage
Some get something that they never bargained for
'Cause it ain't healthy in the spotlight
Want to be special? I know that you do
In the starlight

Come back down to earth, oh yeah
Come back down to earth
Come back down to earth, oh yeah
Come back down to earth

Ain't how it seems in the spotlight
All I know is that nothing can make you feel
Too good for too long
All fake feel goods wear off
And then you're feeling worse off, it's all wrong
Last weeks special gets sold off this week
For a cheap song, so sail on

All my wishes could come true
But boy I'll still be wanting for something else
Still I get it through my thick head
That when I get there I will not want
Where is there?
Well, I know that I will know it when I get there
It's in my prayers

Come back down to earth, oh yeah
Come back down to earth
Come back down to earth, oh yeah
Come back down to earth

Come back down to earth, oh yeah
Come back down to earth
In the stars)
Come back down to earth, oh yeah
Come back down to earth
(In the stars)
