

# Keep On Rockin' It

Luscious Jackson

Till its all over  
Original bone lovers straight from manhattan  
Keep your butt movin'  
Keep your hands clappin'  
Original one droppin'  
We never stoppin'  
Always got bootee  
Always keep rockin'  
Two ladies who don't care for diamonds and gold  
Who love the boys when they young or they old  
Who always got something to say for themselves  
Who put the high heels back on the shelf  
Keep on rockin it  
Keep on shockin it  
Till it's all over  
Keep on rockin it  
Keep on shockin it  
Till it's all over  
Till it's all over  
No family jewels between my legs  
My wealth is my brain  
My jewels my eggs  
My underarm hair is a nice little length  
My earwax is few, but this is my strength  
Little boy blue he got plenty of skin  
He pull off the callous and put the skin in  
He always got something to say for himself  
He put the high heels up on the shelf  
Be my follower  
I won't stay long  
I'm just lookin' for your mother's son  
My reality is in your face  
But every man must know his place  
Keep on rockin' it  
Keep on shockin it  
Till it's all over  
Keep on rockin it  
Keep on shockin it  
Till it's all over  
Fill it's all over  
Feel me falling to my knees  
Sound of children in the breeze  
Keeps me down and pulls me out  
My evolution is all around
