Luscious Jackson

Take A Ride

stay low, arrows
echoes of heroes
follow their go
borrow halos
climb high, you might die
or stick around to see the sights
take this, drink that
things will start to look right
get lost in the cost
of living in the deep frost
take a ride from this life (2x)

can you feel it when it's in the night i take it in with the morning light everyday underneath the sky sing along with the lullaby can you feel it when we step outside in the sun standing in the tide it's a shame when i'm in the game i forget about why i came hush hush can i stop the rush hush hush i'm stuck in the crush take a ride from this life (4x) take a ride from this life (4x)
