

In My Hands

Lush

I can almost see forever
Reflections in your eyes
You said babe you're such a disaster
With the smile you try to hide

Seven days a week I'm dreaming
But I can't sleep
Now that I've got you in my reach

If I could feel you
If I could just feel your heart
It's nothing like I ever knew
All I need is your face in my hands
All I need is your face in my hands

All I need is your face in my hands

I thought time, it was a burden
Before you came along
Now I open up the curtain
Now the darkness is gone

Seven days a week I'm dreaming
But I can't sleep
Now that I've got you in my reach

If I could feel you
If I could just feel your heart
It's nothing like I ever knew
All I need is your face in my hands

If I could feel you
If I could just feel your heart
It's nothing like I ever knew
All I need is your face in my hands

All I need is your face in my hands

'Cause all I really need
All I need is your face in my hands

All I need is your face in my hands
