Lovelife

Lush

You are the one, in your concrete arms I adore you Dirty and dear, block out the sun In your twists and turns I invade
You show me no fear

We blow around like tiny leaves in a big storm
Finding there's nothing left to breathe or to keep warm
You ebb and flow and your rhythm beats my head
Leave me alone while you swallow up the dead

You are the one, you cradle me and kill, caressing my face Leave me undone, you suffocate and have me, this is the place Every door conceals a dream and a nightmare Nothing is ever really pure in the stale air

And when it's dark everything becomes more clear Lie in the park when I want to have you near

You are the one, in your concrete arms I adore you Dusty and dear, block out the sun In your twists and turns I invade
You show me no fear

Left it unsung, I shall leave but I'll return Poison my lungs, my blood is full of lead Things unsaid, my love for you still burns
