

## Ocean

Lush

Come with me  
Into a cool blue stream  
Bleed into oceans green  
Lips open wide, drinking the tide

Reach for me  
Here where the ocean sea melts  
And you sink with me deeper inside  
I'll make you mine

Take me down  
Down where their voices drown  
Down where the only sound  
Echoes for me

Take me down  
Down where their voices drown  
Down where the only sound  
Echoes for me

Floating away under the waves  
Kiss me again, you'll tell me when salt on my lips  
Cool fingertips under the sea  
Stay here with me
