Undertow

So, you want to be alone Run and hide inside your home, home Watch you fall away from me Sinking into misery

Taste your smile and hold my hand Make you laugh and make you dance I remember this Everything was in our kiss

Sink my hands into the sea (Sink my hands into the sea) Reach your fingers up to me, me (Reach your fingers up to me)

Trust me one more time I can only try Throw yourself to me And I'll try to pull you free

Let me try to pull you free Let me try to pull you free Let me try to pull you free Lush
