

Just Memories

Luther Allison

I hope this song brings back memories
I get this feeling the songs today ain't like they use
to be
With a meaning, with a meaning, of love

When I think about, all these unhappy lives
Unhappy people, they must live unhappy lives
They forgot about, love for each other
Just hate, just hate on their mind

I have the blues, singing slow and sweet
Oh I wanna continue singing, singing for you, for you,
for you and me
Mister DJ, would you play it loud and clear
Just play the song, just play the song, loud in each
ear
Ow feeling, feeling I have brings back memories
Memories, memories, memories I wanna hear
Ahh, ahh, ahh, just keep on listening, just keep on
keep on listening, to me

Touch, reach out and feel the pain
I'm going to take you back a million years or so
And see can you understand, just feel the vibration
Feel the vibration, feel, just like the easy touch deep
in the breeze
Late in the night, ohh now, ohh now
Come on, come on, come on and let me, let me touch you
inside
I wanna touch ya, touch ya, touch your soul
Ohhh just one more time, yes feeling, feeling
Feel this song, feel this song, feel this song
Deep down in your heart and soul
