

You Can Run But You Can't Hide

Luther Allison

In this world you need money
Takes money to survive
If you ain't got no money
You can run but you can't hide
You can run but you can't hide

In this world you need lovin'
You need lovin' to survive
You ain't got no love
Run, but you can't hide
You can run but you can't hide

In this world you need courage
You need courage to survive
You ain't got no courage
Then we'll all lay down and die
Lay down and die

In this world you need friendship
You need a friend to survive
If you don't have a friend
You can run but you can't hide
You can run but you can't hide

In this world you need soul
Takes soul to survive
You ain't got no soul
Run but you can't hide
You can run but you can't hide
