

Are You Mad at Me?

Luther Vandross

I was lost until the day I found you
And I know you know
There's not a thing for you that I wouldn't do
But, yesterday was rough on me
I was under the weather
So my dear, I didn't have much to say

And I rushed you off of the phone last night
So I called you back to apologize
But your line stayed busy through the night, you see
And it makes me wonder
Are you mad at me?

I was right to fall in love this way
And one thing's for sure
The angels smiled on me
When you came my way
So my dear, tonight's the night
It's gonna be special
I can't wait to see the face of my love

But even though I tried, sorry I was late
And I understand that you couldn't wait
But you're pulling back, honey I can see
And it makes me worry
Are you mad at me?

I wish I could be perfect for you
Can't you see how hard I try?

When you talk to me I can hear the pain
When I look in your face I can see the strain
And I can hear the cries of the willow tree
Something's wrong I know it
Are you mad at me?

[Ad lib until fade]
