

# Get It Right

Luther Vandross

Morning  
Some of y'all may think  
That this next track  
A little risky for a Luther joint  
But all you gotta do is listen to get it  
Get it right  
Alright, ch'all, lets start from number one  
And get down till it's done

Now watch this sketch as I stretch this mall  
Too live to drive so we put it in park  
With Luther hoping that you feeling his groove  
Get you open on the instruments too, one two, one two  
And I say, jottin' down the lines  
Like dots on the Parkway  
My Auntie Eloise say stay on your Q's and P's  
And until the days of D's, I'm doin' what I please  
Ease on down like the road  
Depending on the mood, definitely into more  
And you can catch a yellow brick  
You need to run and tell your click  
That the female in town is bringing it  
Now listen, Mission Impossible  
Keep it general like the hospital  
Shake, rattle and roll, to rock wit' chu  
The Pre to the C-I-S-E do

[Luther]  
Let's get this thing to workin'  
There's no reason to wait  
The time is now to start it  
We all could use the change

[1] - Do it till we get it, get it right  
Till we get it  
Ain't no doubt,
