

# Hustle

Luther Vandross

I love when the day is new  
We get to start all over  
But the thing is sometimes getting through the day  
Is just one big hustle

The world is waiting, dawn is here  
Ain't got time to waste, we need to work, my dear  
Hurry, hurry can't delay  
Get up and start today, it's time to

Hustle  
Oh, trying to keep things together  
Working all day, finding a way to hustle  
Soon I'll be back to you but first I got a lot to do

We learn to fight to survive  
And that's how we manage to stay alive  
Then we let the night settle in  
Then I get to see my bab again

I know you're waiting patiently  
You're home before I am and so you wait for me  
Anticipatin', I rush I do  
I'm coming back to you, I've got to

Hustle  
Oh, I can't stay in this place  
I've got to see my baby's face  
(Hustle)  
Sure as I breathe and live  
I've got a lot of love to give

You're my lady, I'm your man  
Let's turn the music up, I think it's time to dance  
Night has fallen, spirits rise  
Ain't no compromise, we came to

Hustle  
Up all night, don't stop yet  
Just let the music make you sweat and  
Hustle  
Forget about the work we do  
I just wanna be with you
