

# I Wanted Your Love

Luther Vandross

Yeah, your love

All of the band was on time for rehearsal  
And played everything just right  
Then came the news telling me not to worry  
The show is sellin' out tonight

Well, the lights went on and suddenly the crowd began to scream  
And as you could well imagine, it was like livin' a dream  
Oh, but when the lights went down and the standing, oh, was done  
I was just another lonely guy who didn't have no one

I wanted your love, your love baby, your love baby, your love  
Your love, your love  
Give me your love, give me your love, give me your love

I wanted your love, your love baby, your love baby, your love  
Your love, your love  
Well well, your love

So busy daydreaming 'bout you, baby  
I didn't even hear the phone  
Then, when my friends rang the doorbell it scared me  
They said, we're, oh, so glad you're home

You just won a million dollars and a trip around the world  
Better get yourself together and forget about that girl  
They thought I was acting crazy not to get excited too  
But all the money in the world could never take the place of you

I wanted your love, your love baby, your love baby, your love  
Your love, your love  
I wanted your love, your love baby, your love baby, your love  
Your love, your love

Your love, your love, your love  
Give me your love, give me your love, give me your love  
I want your love

Your love baby, your love baby, your love  
Your love baby, your love baby, your love

All over the city the lights were so pretty  
The holiday was filled with cheer  
The stars really glistened and lovers were kissin'  
It was that special part of the year

So what a perfect time it was to find someone to say I do  
Thought that I could still be happy even though she wasn't you  
We had told the world that we were gonna ring the wedding bell  
But when I really thought about it, I was lying to myself

I wanted your love, your love baby, your love baby, your love  
Your love, your love  
I wanted your love, your love baby, your love baby, your love  
Your love, your love

I wanted your love, your love baby, your love baby, your love  
Your love, your love  
I wanted your love, your love baby, your love baby, your love  
Your love, your love
