

It's All About You

Luther Vandross

Lady, let me dry the rain drops from your beautiful hair
Thats all I ever want to do
And darling let be the one you can always depend on
You know I will never let you down
Cause I, want to spend my whole life just hoping
That I can please you, cause thats all I ever want to do

Its all about you, its not about me
There is no one more beautiful than you are to me
Its all about you, its not about me
And I am proud to know that you have me here by your side
Cause its all about you, hey, hey

Lady, I will be the sunshine that brighten up your way
And it doesnt have to be a special day
Please, let me take you to a sacred place where only lovers go
Our own little hide away
Cause I, want to spend my whole life just hoping
That I can please you, cause thats all I ever want to do

Its all about you, its not about me
There is no one more beautiful than you are to me
Its all about you, its not about me
And I am proud to know that you have me here by your side

Girl, I have search all over the world
Trying to find that special girl
But when I looked into your eyes
I knew you were the one for me
So now I am giving my life to you
So what ever you want
What ever you need
I am willing and able to give

(Repeat until fade)

Its all about you, its not about me
There is no one more beautiful than you are to me
Its all about you, its not about me
And I am proud to know that you have me here by your side
