

# Little Miracles (Happen Every Day)

Luther Vandross

One thing I would love to do  
Is talk to someone  
Wish I knew who  
Sometimes the people who know the least say the most  
Makes you wonder who you can trust  
What's gonna happen

The first thing I know  
God is love  
The next thing would be  
He loves me  
Sometimes I'm tired of waiting for a thing or someone  
Then I stop and see what He's done  
And I know everything will come

And it maybe today  
Anything can change, nothing stays the same  
And maybe today  
What's tomorrow for  
No one knows for sure  
Through it all come may  
Little miracles happen everyday

And so there you go  
Strangely enough  
Alone even so  
Addicted to love  
You're in and out so quickly  
That it gives you a start  
You're waiting for a message or a word  
But you haven't heart from your heart

But it might be today  
Anything can change  
Nothing stays the same  
And maybe today  
For the love in me  
I really believe  
Through it all come what may  
Little miracles happen everyday

What is a miracle  
Love is a miracle  
Every time that you care  
Miracles happen somewhere  
So many miracles  
Even small little miracles  
Just take one look about  
It's not hard to figure out

Cause it might be today  
Anything can change  
Nothing stays the same  
And maybe today  
What's tomorrow for  
No one knows for sure  
Through it all come what may

Little miracles happen everyday  
Little miracles happen everyday
