# Now That I Have You

**Luther Vandross**

You found me when I was alone
You held me and you made my heart your home
I sit around and dream
And there's no one else I see
Cuz there's no one else for me
I don't feel like crying

[1] – I have no tears
Cuz I have no reason to cry
Love is on my mind
And my heart's no longer blue
Now that I have you

I don't let anyone tell me what to do
How to love, who to love
They don't know you like I know you
This is so natural, it's hard to believe
People all around me
And there's no one else I see
Cuz there's no one else for me
I don't feel like crying

[Repeat 1]

I have the world, and I have no fears
And I know where my happiness is
Now that I've got you to care
Now that you've got me forever
Everything I don't want is gone
And I know I can't live without your love

All the things I wanted now
Are starting to be true
And all the dreams I ever dreamed
Are coming now that I have you
Love is on my mind
And my heart's no longer blue
Now that I have you
Oh, now that I have you
Now that I have you
