

# See Me

Luther Vandross

Yesterday was the first time  
That I didn't hear from you  
Almost felt like the world had ended  
What was I to do

[Channel 1:]

You're the one for me  
And only you can be my love fantasy  
You lift me up higher, you're who I desire  
I just love what you do to me  
Don't leave me waiting too long  
Come by and...

[Chorus:]

See me  
You need love, baby  
I need love, baby  
See me  
Hurry baby

I can't hide my emotions  
It never turns out right  
And without you there was no one  
To get me through the night  
Well, I had never cried so much  
For anybody else's touch  
I even scared myself  
What a way to spend my time  
Hopin' for even one line  
From you and no one else

[Channel 2:]

I really need you here with me  
Seem, all these lonely nights keep  
Messin' with my mind  
I'm so satisfied I asked you to come on by 'cause  
I know soon you'll be by my side  
And, oh you won't keep me waiting too long  
When you come by to...

[Chorus]

[Channel 1]

[Chorus]

[Fade]
