

# Stop To Love

Luther Vandross

Lately love, keeps keeping me waking up  
Tossing and turning, my love  
Wanna kiss, wanna hold you so tight  
Ooh, but I wonder, love, whether you know or not?  
When you just hurry away  
Leaving me laying there in shock

I just wanna be the one that you wanna see  
I just wanna have you near me  
But you fly away almost everyday  
You work a lot, you never stop to love

Stop, I love you, stop, stop  
Come home from the road  
Gotta stop to love  
And let's celebrate  
The love we got, stop  
Say you're coming home  
Gotta stop to love, yeah

You say, my love has always been  
On your mind  
But how can I ever love you  
When you keep working overtime?

Too many empty nights  
Could make almost any guy  
To look for the love he don't get  
Whenever he's alone at home

Awaiting the day, that you're coming to stay  
I hate to see you go away but you couldn't rest  
Had to be the best to reach the top  
But you did not stop to love

Stop, I love you, stop  
Stop, come home from the road  
Gotta stop to love  
And let's celebrate, celebrate  
The love we got, stop  
Say you're coming home  
Gotta stop to love

And one day you'll discover  
I'm the one who loves you  
Gotta stop to love  
No one does you better  
Can't you stay forever?  
Stop to love

I can hardly stand the loneliness  
Come on stay, yeah  
'Cause that's what it's all about  
You really turn me out

I love you stop, stop  
Love you stop, stop

Come home from the road  
Gotta stop to love  
And let's celebrate, celebrate  
The love we got, stop  
Say you're coming home  
Gotta stop to love

I love you stop, stop  
I still love you stop, stop  
Come home from the road  
Gotta stop to love  
And let's celebrate, celebrate  
All the love we got, stop  
Say you're coming home  
Gotta stop to love

I love you stop, stop  
I still love you stop, stop  
Come home from the road  
Gotta stop to love  
And let's celebrate, celebrate  
All the love we got, stop  
Say you're coming home
