

Knee Deep

Lydia

So I'm knee deep in this summer creek
Washing everything away,
Just get it all away

Now you're looking all the same,
looking all the same,

But she'll never see,
Yeah she'll never see,
All that wicked inside of me,

Yeah everything I learned I'll soon forget it,
You tell me I fucked up well I guess I did then,
Just take me back to that day,

Now she's waist deep in my summer sheets saying,
How about we go,
How about we go,

So I'll just runaway,
I'll just runaway,
Runaway from her,

So she don't see,
Hope she don't see,
All that wicked inside of me,

Yeah everything I learned I'll soon forget it,
You tell me I fucked up well I guess I did then,
Just take me back to that day,

Well I don't want to wait,
I don't want to wait,
I don't want to wait,
So I take my time,
I take my time,

I don't want to wait,
I don't want to wait,
I don't want to wait,
So I take my time,
I take my time,

But if you stay it might get cold,

Just take me back to that day,
Yeah everything I learned I'll soon forget it,
You tell me I fucked up well I guess I did then,

Everything I learned,
Everything I learned,
Forget it,

You tell me I fucked up well I guess I did then,
Just take me back to that day
