Lydia

Stay awake, let's never speak of this again
'Cause nobody saw her,
It just seemed so strange to me

(I don't)
Don't be so strange
('Cause I liked it, I liked it here)
Don't be so sad
'Cause I still haven't won
If my lungs break
If my heart beats because no, we never saw

And I still believe you're close to me
I'm sorry, I just can't be afraid
And don't be so hard on yourself now
'Cause as much in the way we're speaking,
It's all over your teeth

Stay awake, let's never speak of this again
'Cause nobody saw her,
It just seemed so strange to me

(I don't)
Don't be so strange
('Cause I liked it, I liked it here)
Don't be so sad
'Cause we finally hit the crown, let's run free
If my lungs break
If my heart beats
Because no, we never saw you again
Much of this is the way we speak

And I still believe you're close to me
I'm sorry, I just can't be afraid
And don't be so hard on yourself now
'Cause as much in the way we're speaking,
It's all over your teeth
