## **Done Crying**

## Lyfe Jennings

So I guess it's really over You done made that clear No turning back from here (There will be no turning back from here) It's funny how you never miss the way Until the waters in another glass Though you try every trick to get her back She ain't having none of that

It's everything that we do comes back everytime Everything we say comes back every line Everything we are we get everytime Everything that made my mind and broke my heart When your best friend told me that You're done crying She said you're done crying Over me (Yeah, ooh) Ohh, She said that you are done (right) (She said that she doesn't want to do this anymore) She said you're done (She said that it's over) Crying over me (yeah)

I guess all the lies finally drained ya Baby I can't blame ya You did me nothing but good And I did you nothing but wrong Say it never been this hard Say it's so long understanding If I could take it back I would Famous words of a lonely man

It's everything that we do comes back everytime Everything we say comes back every line Everything we are we get everytime Everything that made my mind and broke my heart When your best friend told me that You're done crying She said you're done crying Over me (Yeah, ooh) Ohh, She said that you are done (right) (She said that she doesn't want to do this anymore) She said you're done (She said that it's over) Crying over me (yeah) (She said that it's over) (She said that it's over)
