I'll Always Love You

Lyfe Jennings

Never miss a good thing 'til it's gone I never meant to hurt you girl I was wrong I always knew that one day you'd move on with your life But I guess in the back of my mind I thought you would come home one more time I heard it through the grapevine you got a man they say he treats you good and he makes you laugh I'm happy for you baby and I ain't mad at you May all your kids do good in school And may all your dreams come true

I'll always love you I'll always care And girl you gotta know that I'll always love you girl And no matter where you are Know that my love is never far

A happy woman is worth her weight in gold Loneliness is good for the soul Expensive places,faces come and go But you only find your soul mate once And if you miss your chance you'll never find it again I can't complain I did this to myself You needed me and I wasn't there to help It breaks my heart to see you lovin' someone else I would give anything I own If I could just have my baby home
