

If I Knew Then, What I Know Now

Lyfe Jennings

It took a tragedy for me to see, for me to come back to reality
It took my family, sanity
This wasn't part of the plan for me
People talked about me, went on without me
As if I had never existed
I guess a blessing taught me a lesson
I'll remember as long as I'm living

If I knew then what I know now, I'd be different, I would slow
down
I would not be running around, if I knew then what I know now
If I knew then what I know now, I'd be different, I would slow
down
As the world spins round and around, wish I knew then what I kn
ow now
I did it to myself, blamed nobody else

People warned me before it went down
I was out of control, drugs and alcohol, living life like there
was no tomorrow
And I'm not no superstar, times are super hard
I'm still finding my way day to day
And I'm a man of my mind, I apologize, no one's perfect we all
make mistakes

If I knew then what I know now, I'd be different, I would slow
down
I would not be running around, if I knew then what I know now
If I knew then what I know now, I'd be different, I would slow
down
As the world spins round and around, wish I knew then what I kn
ow now

Spent a lot of time upset, lot of things I regret
Damn it's so hard to let it go it go
They say that this gonna pass, I know but I'm still mad
It just all happen so fast, for sure for sure
Mommy say life is prayer, daddy say life ain't fair
But at least life still here, ya know ya know
If I could take it back I would, if you could take it back you
should
Bad times come with the good, hold on hold on

If I knew then what I know now, I'd be different, I would slow
down
I would not be running around, if I knew then what I know now
If I knew then what I know now, I'd be different, I would slow
down

As the world spins round and around, wish I knew then what I know now
