

Rock

Lyfe Jennings

Me channel Marvin Gaye on this one

The universe baby, pick a star
Any star baby

Bought myself a one-way flight to the nearest star
Travelling at the speed of light to get where you are
I've been travelling all night, I'm halfway to Mars
Gotta get back to you yea

Can't wait til I see your face, it's been too long
Fantasies in outer space kinda turn me on
My man's all over the place, can't make it but home
Gotta get back to you yea

Only now, here comes the part
Where we turn into shooting stars, the world is ours
Venus, Jupiter and Mars
All this old galaxy spreads its arms for you and me
This is where we were born to be

Rock, baby rock
Don't stop, don't you stop
Girl push, come on push it yea
Rock, baby rock
Don't stop, don't you stop
Girl push, you're too much for this

Got myself a new outfit and I'm lookin good
My baby thinks that I'm the shit like I knew she would
This is as good as it gets, knock knock on wood
Glad I got that to choose yea

She is more than just my friend she my better half
Let me be just who I am and she make me laugh
I don't think yall understand, I'm a happy man
Glad I got back to you

And now, here comes the part
We turn into shooting stars, the world is ours
Venus, Jupiter and Mars
All this old galaxy spreads its arms for you and me
This is where we were born to be

Rock, baby rock
Don't stop, don't you stop
Girl push, come on push it yea
Rock, baby rock
Don't stop, don't you stop
Girl push, you're too much for this

She amused when I drink to the champagne
All the candlelight dinners and the flowers and the chocolates
But tonight it seems only right
To pay respect to the lady who changed my life
Yall don't really understand what's about to happen
Wait til yall see all these people screamin and clappin

It's gon be like it's the return of Batman
But it ain't that man, my girl be back man

Rock, baby rock
Don't stop, don't you stop
Girl push, come on push it yea
Rock, baby rock
Don't stop, don't you stop
Girl push, you're too much for this
