

Whatever She Wants

Lyfe Jennings

Sometimes when I'm with you I feel like a mess
No emotion
The smell of your perfume
The scent of your lotion
Floatin through the air to another world
You gotta take me there
And it don't even it dont even have to be mutual
Knew you was the one before I was introduced to you
I'm not unused to you
You're the one

She don't have to ask for nothin
She can get whatever she needs
She's the one I love
She's the one I want
She's for me

Sometimes when I'm with you I feel like I'm on a rollercoaster
Scared to death that I'll do somethin I'm not supposed to
Gotta get closer
See I wanna know you
And I been feelin I been feelin like a videographer
Tapin every moment I'm alone I'm rewatchin her
Ain't nothin stoppin her
She's the one

She don't have to ask for nothin
She can get whatever she needs
She's the one I love
She's the one I want
She's for me
